**DETAILED ACTION**

***Claim Rejections - 35 USC § 103***

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

2. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary. Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

3. Claims 1-43 are rejected under 35 U.S.C. 103(a) as being unpatentable over Riebel et al (U.S. Patent 5,593,625 A) in

Art Unit: 1732

combination with Young et al (U.S. Patent 2,899,352 A) for the reasons of record.

***Response to Arguments***

4. Applicant's arguments filed on 31 January 2007 have been fully considered but they are not persuasive.

5. Applicant argues that Riebel et al does not teach mixing a protein hydrolysate with a synthetic resin. Examiner responds that Riebel et al does teach mixing a protein hydrolysate with a synthetic resin (see col. 11, line 64 to col. 12, line 17; col. 15, lines 15-20; col. 16, lines 39-51 of Riebel et al).

***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 1732

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
